

# Workshop

Working with ProLab  
and ProLab Plus 2011

6<sup>th</sup> and 7<sup>th</sup> of October 2011 in Dresden

Dear Sir or Madam,

We would like to cordially invite you to our upcoming workshop "Working with ProLab and ProLab Plus." Among other things, this is an opportunity to learn about recent innovations in the software, and to further your understanding of the statistical background. It is also an ideal setting for ProLab and ProLab Plus users to meet and get together to exchange information and experiences.

### **The workshop at a glance**

This educational event is aimed at both new and experienced users.

*Thursday, 6<sup>th</sup> of October*

#### **ProLab Basics**

- Study design
- Data entry
- Statistical evaluation (ISO 5725-2, DIN 38402 A 45, ISO/TS 20612)
- Reporting
- Exercises

#### **News from ISO**

- News from the current revision of ISO 5725, ISO 13528 and ISO 16140
- New requirements to the statistical evaluation of PT's due to ISO/IEC 17043

*Friday, 7<sup>th</sup> of October*

### **Analytical methods, operator assessments and case studies**

- Data entry of analytical methods
- Comparison and equivalence test of analytical methods
- Can z scores be used to assess the performance of operators?
- Case studies

### **The participation fees**

Fees for the workshop are depending on the respective license agreement. Non-licensees are charged a fee of 1,000 € (if a software license is purchased in 2011, the fee will be prorated). Fees do not include VAT. If the seminar is cancelled by quo data GmbH, paid fees will be refunded completely. Further claims for compensation against quo data GmbH are excluded.
